

2009 DEVICE CHARTS

LIST OF ABBREVIATIONS

AAA, abdominal aortic aneurysm

ACT, activated clotting time

AO, anterior oblique

AV, arteriovenous

AVM, arteriovenous malformation

CAS, carotid artery stenting

CTA, computed tomography angiography

CTO, chronic total occlusion

DMSO, dimethyl sulfoxide

ePTFE, expanded polytetrafluoroethylene

EVOH, ethylene vinyl alcohol

F, French

GSV, great saphenous vein

HDE, Humanitarian Device Exemption

ID, inner diameter

IFU, instructions for use

IV tPA, intravenous tissue plasminogen activator

LV, left ventricle

MRI, magnetic resonance imaging

n-BCA, n-Butyl Cyanoacrylate

OD, outer diameter

OEM, original equipment manufacturer

OTW, over the wire

PEBAX, polyether block amide

PLGA, poly(lactic-co-glycolic acid)

PMA, premarket approval

PSI, pounds per square inch

PTA, percutaneous transluminal angioplasty

PTD, percutaneous thrombolytic device

PTFE, polytetrafluoroethylene

RF, radiofrequency

RO, radiopaque

RV, right ventricle

RX, rapid exchange

SE, self expanding

SFA, superficial femoral artery

SSV, small saphenous vein

SV, saphenous vein

TAA, thoracic aortic aneurysm

TIPS, transjugular intrahepatic portosystemic shunts
