

GUIDEWIRES

HYDROPHILIC						
Company Name	Product Name	Type (Nitinol or Other)	Diameter (inch)	Length (cm)	Tip Type	Comments
AngioDynamics	AquaLiner	Nitinol	.032, .035, .038	150, 180, 260	Straight or angled	Available in regular or stiff configurations. Advanced coating technology, next-generation hydrophilic performance.
Cook Incorporated	HiWire	Nitinol core, polyurethane jacket	.018-.038	150, 180, 260	Angled or straight	Available in either a standard or stiff shaft configuration.
	Roadrunner PC	Nitinol core w/Pt coils, polyurethane jacket	.035-.038	145, 180, 260c	Angled or straight	Available in either a standard or stiff shaft configuration and a standard or long taper configuration
	Roadrunner PC - Conners Mod.	Nitinol core w/Pt coils, polyurethane jacket	.035-.038	145, 180, 260	Angled	Distal 65 cm of wire is hydrophilic coated polymer; remaining portion is TFE coated.
Medtronic	Cougar LS	Nitinol	.014	190, 300	J-curved or straight	Cougar Workhorse wire technology, available in hydrophilic and silicone.
	Cougar XT	Nitinol	.014	190, 300	J-curved or straight	Cougar Workhorse wire technology, available in hydrophilic and silicone.
	Zinger Light	Stainless steel	.014	180, 300	J-curved or straight	Zinger Workhorse wire technology, light support, with Hydrotrack hydrophilic technology.

HYDROPHILIC (CONTINUED)						
Company Name	Product Name	Type (Nitinol or other)	Diameter (inch)	Length (cm)	Tip Type	Comments
Medtronic	Zinger Medium	Stainless steel	.014	180, 300	J-curved or straight	Zinger Workhorse wire technology, medium support, with Hydrotrack hydrophilic technology.
	Zinger Support	Stainless steel	.014	180, 300	J-curved or straight	Zinger Workhorse wire technology, with advanced support, with Hydrotrack hydrophilic technology.
	Thunder Wire	Stainless steel	.014	190, 300	J-curved or straight, core to tip	Thunder Extra Support wire technology, available in silicone only.
	Persuader 3	Stainless steel	.014	180, 300	Straight, core to tip	Persuader 3 Crossing Wire technology, available in silicone and hydrophilic.
	Persuader 6	Stainless steel	.014	180, 300	Straight, core to tip	Persuader 6 Crossing Wire technology, available in silicone and hydrophilic.
	Persuader 9	Stainless steel	.014	180, 300	Straight, core to tip	Persuader 9 Crossing Wire technology, available in silicone and hydrophilic.
Merit Medical	H2O	Nitinol	.018, .025, .035, .038	80, 150, 180, 260	Straight and angled	Standard and stiff shaft.
Terumo Medical Corporation	Glidewire Hydrophilic Coated Guidewire*	Nitinol	.018, .025, .032, .035, .038	80, 120, 150, 180, 260	Angled, straight, J-curved, shapeable. Tip flexibility: 3 cm, 5 cm, 8 cm	Offer this in standard shaft, shapeable tip and stiff shaft. Superelastic nitinol core.
	Glidewire Gold Hydrophilic Coated Guidewire*	Nitinol	.011, .014, .016, .018	180	Shape: 45-degree and 70-degree angle. Tip flexibility: 5 cm and 8 cm	For peripheral and neuro applications. Includes gold tip for radiopacity. Superelastic alloy core. For neuro, atraumatic distal portion specifically engineered for delicate neuro procedures.
	Headliner Hydrophilic Coated Guidewire*	Nitinol	.012, .016	200	45-degree angle, 90-degree angle, 90/150-degree double angle, 1.5-mm J-tip angle	Radiopaque gold coil tip. For neuro, atraumatic distal portion specifically engineered for delicate neuro procedures. Floppy and standard tip available.
	Glidewire GT	Nitinol	.018	180	45-degree angle, 90-degree angle, 90/60-degree double angle, straight (shapeable)	Polyurethane jacket with propriety M Coat hydrophilic coating. Flexible distal end with soft gold coil tip.

*On April 1, 2006, Terumo Interventional Systems will begin direct sales of this product line. They are currently sold through Boston Scientific Corporation.
